**Workshop time: 2:00 - 5:00 pm**

***ALL AUTHORS INTERESTED IN ATTENDING THIS WORKSHOP \*\*MUST\*\* REGISTER FOR THE ASIA ACADEMY OF MANAGEMENT CONFERENCE, JUNE 19-21, 2019.***

***Organizational Behavior Division of the Academy of Management*** invites you to its regional paper development workshop. The purpose of this workshop is to help authors develop their ideas for papers that may ultimately be submitted to top journals in the field.

The OB Division of AOM is a vibrant community of over 6,000 members from 65 countries. We research, teach and engage with practitioners around the world to address issues of importance in the management of individuals and groups in organizations. Our research helps us to understand how to build better workplaces that are productive for organizations and society, and fulfilling to organizational members.

**About the Workshop:**

This event will include a presentation by executive members of the OB Division. Hands-on paper development discussions will follow the presentation.

**Presentation topics include:**

- Reasons why papers are rejected at top journals
- How to identify novel research questions from real-life phenomena
- Integrating theory into study design
- Improving your chances of getting a revise and resubmit
- Dealing with revise and resubmits
- Importance of building strong international research partnerships

**Roundtable paper development sessions:**

- Feedback on papers that authors are considering for submission to top journals.
- Discussions will focus on framing, methodological rigor, data analysis and interpretation.

As space is limited, preference will be given first to those whose papers are being discussed in the roundtables. Additional spots will be allocated on the basis of first come, first served.

- Those who wish to have their paper reviewed and discussed should submit an extended abstract (between 5 and 10 pages of text) of their papers or paper ideas by **\*May 10, 2019\*** to **Alex Newman (Chair of the Global Committee of the OB Division)** at [a.newman@deakin.edu.au](mailto:a.newman@deakin.edu.au). Abstracts will be accepted on a competitive basis.
- We encourage authors to submit their extended abstract as soon as possible. While the deadline for the OB paper development workshop is May 10, authors of submissions received by April 10 will receive notification of a decision before April 15, the last day for early-bird registration. After this date abstracts will only be accepted if space permits.
- The abstract should provide a synopsis of the research question, its relevance and significance, a statement relating to the limited ability of extant concepts and/or theory to provide a coherent response to that question, the empirical approach, and the implications of the findings.
- Extended abstracts should be about 10 pages, double spaced, excluding tables, figures and references.
